

## **Grower to Grazer Connections @ Mid-Valley Winter AgFest**

Join the Polk SWCD staff as we host forage seed growers from our region to learn about the many seed resources grown in our region. Livestock and horse owners will learn about the many grass, legume and other kinds of seed available for high quality forage production. Factors such as suitability to soil type and moisture, hardiness and livestock dietary need will be discussed by our panel of growers and seed company representatives. Bring a tag from a pasture seed mix bag or other list for discussion.
